**Attachments:** SHC Posters Aug 2017-2018.xlsx

**Flag:** Follow up

Working from the file you sent, SHC has 30 posters that have PI/POs in RTP. See the SHC tab. A number of the PIs have multiple posters (they are grouped by color in the excel sheet). For example, Danelle Lobdell has 7 that are on public health/eco-health connections and indicators. There is another grouping by a few PI/POs on assessing environmental health disparities. Prasada Kodavanti has 4 of those. So RTP-SHC posters very much have a public/community health focus.

Mentioning this because this gives us the opportunity to have 1 PI present on several of their presentations if those are topics the RSLs are interested in.

SHC also has a some posters on the hot topics of late, including wildfires, lead, tire crumbs... Some of the other NPDs may also have posters on these cross-cutting topics.

A note that SHC does not have researchers in RTP on a number of our research areas – such as materials management, nutrients/HABs, PFAS from landfills, ecosystem goods and services.

Hi Emma,

That approach works for me. I can schedule a time for us to have a rapid review meeting this week unless we want to handle it differently.

**Subject:** RE: RSL meeting

Yes, that's a lot. My approach was to filter by year 2018 and poster. That yielded 327 and is the sort of thing that each LCO or NPD rep can then eyeball for their posters or staff and put forward any that look fitting to the meeting. If that yields an even smaller number, we could have a rapid review meeting and select 30 or less?

**Subject:** RE: RSL meeting

Hi all,

I pulled posters from STICS. The list still needs to be culled and reviewed, A LOT. I'll take a closer look next week. Let me know your feedback. Happy to discuss too.

Have a good weekend, Monica

Ok!

Monica - let's connect Monday morning.

Hi Karen and Monica,

Please contact me if you need input on the poster search. I will probably be learning from you as I'm still learning how to use STICS.
